About Mott Manufacturing

Mott has furnished laboratories for almost 60 years, providing quality products through customizable manufacturing and a commitment to service. Serving the world's leading organizations, for the industrial, pharmaceutical, education, health care and government markets.

About the Role

Reporting to the department Lead Hand, the Brake Press Operator is responsible for inspecting and verifying material and setting up the brake press with the required materials and gauges prior to braking parts. The brake press operator will read blueprints and data sheets to determine how to brake parts. If you want to learn new skills or work with high performing teams, Mott has a spot for you.

Benefits Of Working At Mott

- Competitive compensation package
- Benefit package
- Annual profit sharing
- Group Pension and RRSP (after 6 months of employment)
- Hiring Bonus

Responsibilities

- Inspect, verify material, and dimensions of parts prior to braking
- Select and change dies
- Determine correct braking order
- Set-up the brake press for any required material, gauges or parts
- Form different materials and gauges as per prints provided
- Follow quality procedures for first and last offs
- Maintain equipment and conduct minor repairs (i.e. oiling, changing rollers & completing records accordingly)

Skills & Experience

- Ability to setup and run a Brake Press
- Ability to read blueprints and data sheets
- Basic math skills
- Physically fit for heavy lifting of >35 lbs
