About Mott Manufacturing

Mott has furnished laboratories for almost 60 years, providing quality products through customizable manufacturing and a commitment to service. Serving the world's leading organizations, for the industrial, pharmaceutical, education, health care and government markets.

About the Role

Reporting to the department Leader, the Senior MIG or TIG Welder is responsible for reading blueprints, setting up controllers and jigs to square products and welding different products. This is done while maintaining the integrity of the weld throughout the process. If you want to learn new skills or work with high performing teams, Mott has a spot for you.

Benefits Of Working At Mott

- Competitive compensation package
- Benefit package, including health care, dental, vision, life insurance, short term disability, out of country medical
- Annual profit sharing
- Group Pension and RRSP (after 6 months of employment)
- Hiring Bonus

Responsibilities

- Work in compliance with the provisions of the Occupational Health and Safety Act (or the “Act”) and the regulations, and Mott policies
- Read Mott drawings to determine requirements
- MIG or TIG weld different products and materials
- Weld & test first sample and record results
- Set controllers to required heat matching type of steel and thickness
- Fit correct parts together as per drawings
- Verify welded assemblies to drawings and place on carts
- Clean welds with acid wash
- Metal finish products when needed
- Perform other duties as required

Skills & Experience

- Minimum of 1 year of experience as a MIG or TIG Welder
- Must understand welding procedure and heating effect to eliminate product warping
- Ability to read blueprints and data sheets
- Ability to work with power hand tools (i.e. cordless drill)
- Must know how to use a tape measure

Contact Us To Apply
