

# TABLETOP UTILITY HUBS

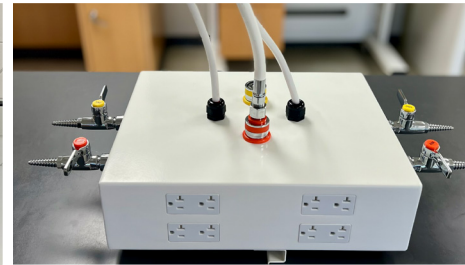

## Quick & Simple Flexibility

Tabletop utility Hubs are used to deliver easy access to plumbing, power, and data to tables, benches, carts, workstations and fixed casework.

The Hubs are lightweight allowing for rapid relocation, and it has the same quick disconnects and hoses used with workstations.

## Customizable

Utility Hubs are customized to meet the unique needs of each laboratory, allowing you to create a laboratory that grows and changes with you.

## Relocatable

Utility Hubs sit on the worktop and are easily accessible to users. Simply move the Hub when your needs change.

## Table Bracket

Add this option to have a module that's physically connected to the table.
